SPECIAL HINTS FOR ATTRACTING BUTTERFLIES AND HUMMINGBIRDS:

Plant perennials with a variety of bloom times starting in early spring continuing into late fall to attract the early migrators and late season visitors.* Plant larger groups where possible to make the biggest show to attract the attention of passing butterflies and hummingbirds. Provide a source of fresh water nearby.

*Use the *Advanced Plant Search* tool on our website (www.sandysplants.com) to find plants for every season.
